

Statement of Priorities 2023-24 for Omeo District Health

OFFICIAL

Department of Health
Statement of Priorities
2023-24

Department
of Health

OFFICIAL

The department proudly acknowledges Victoria's Aboriginal communities and their rich culture and pays respect to their Elders past and present.

We acknowledge Aboriginal people as Australia's first peoples and as the Traditional Owners and custodians of the land and water on which we rely.

We recognise and value the ongoing contribution of Aboriginal people and communities to Victorian life and how this enriches us.

We embrace the spirit of reconciliation, working towards the equality of outcomes and ensuring an equal voice.

Background

Statement of Priorities are the key accountability agreements between the Victorian State Government and Victorian publicly funded health, mental health and ambulance services. The content and process for preparation and agreement of the annual Statement of Priorities is consistent with sections 40G, 65ZFA, 65ZFB and section 26 of the *Health Services Act 1988*.

Statement of Priorities are consistent with the health services' strategic plans and aligned to government policy directions and priorities. For 2023-24, the Statement of Priorities also refer to the *Department of Health Strategic Plan 2023-27* (Strategic Plan). The annual agreements support the delivery of, or substantial progress towards, the key shared objectives of quality and safety, good governance and leadership, access and timeliness, and financial sustainability.

Statement of Priorities consists of four main parts:

- Part A provides the strategic priorities for the health service to contribute to in the year ahead.
- Part B lists the performance priorities and agreed targets.
- Part C lists funding and associated activity.
- Part D forms the service agreement between each health service and the state of Victoria for the purposes of the National Health Reform Agreement.

Performance expectations and mechanisms used by the Department of Health (the department) to monitor and manage performance are described in the *Victorian Health Service Performance Monitoring Framework 2023-24* (The Framework).

High standards of governance, transparency and accountability are essential. In this context, the Victorian Government commits to publish Statements of Priorities each year and present data on the performance of our health system in the public domain.

Strategic Priorities

The department on behalf of government delivers policies, programs and services that support and enhance the health and wellbeing of all Victorians. The department's vision is to create a future where Victorians are the healthiest people in the world. A Victoria where children and people thrive, where workplaces are productive and safe, and where communities are more connected.

The department's job is to support Victorians to stay healthy and safe; and to deliver a world-class healthcare system that ensures every single Victorian can access safe, quality care that leads to better health outcomes for all.

To fulfil these obligations, the department has developed the *Department of Health Strategic Plan 2023-27* (Strategic Plan) with seven guiding strategic priorities, to shape the health system's direction. Health services will contribute to the department's strategic priorities through signing and enacting the Statement of Priorities. The seven strategic priorities are:

- Keeping people healthy and well in the community
- Providing care closer to home
- Keep innovating and improving care
- Improving Aboriginal health and wellbeing
- Moving from competition to collaboration
- A stronger and more sustainable workforce
- A safe and sustainable health, wellbeing and care system

Government Commitments

The Victorian Budget 2023–24 (the budget) continues to invest in building hospitals, supporting our health system to meet growing demand and supporting our hardworking healthcare workers to ensure Victorians get the care they need, close to home. This budget provides investment in essential services including:

- \$1.5 billion to boost deferred elective surgery and ease the pressure on our hospitals.
- \$776 million for critical bed-based services, alcohol and other drug services, infrastructure, earlier support in community mental health services and the roll-out of the new Mental Health and Wellbeing Act.
- \$320 million to plan the delivery of major investments at seven hospitals across the state to ensure Victorians receive the highest quality healthcare.
- A \$270 million investment in our health workforce to make it free to study nursing and midwifery for nurses that join the public health system.
- A \$201 million system wide boost to support timely emergency care, including more ambulance services and improvements to emergency department programs, to get patients the care they need as quickly as possible.
- \$162 million for better aged care services across regional Victoria, to build new public aged care services in Cohuna, Maffra and Numurkah.
- \$157 million for critical bed-based mental health services across our state including more Hospital in the Home beds for Barwon Health, improving in-home mental health care for acutely unwell residents across the Geelong region.
- \$154 million to give women's health the focus and funding it deserves, including 20 new comprehensive women's health clinics at public hospitals.

Part A: Department of Health Strategic Plan

The Statement of Priorities are aligned with the [Strategic Plan 2023-27](https://www.health.vic.gov.au/our-strategic-plan-2023-27).

<<https://www.health.vic.gov.au/our-strategic-plan-2023-27>>.

Omeo District Health will contribute to the Strategic Plan 2023-27 by agreeing to the following priorities:

Ministerial Priorities

1. Improved health system culture, grounded in respect and safety.
2. A supported, growing, and fit-for-purpose health workforce.
3. A reformed overall health system (community-based and acute health services), with reforms to service models and enablers (structural, financial and cultural), delivering improved patient safety, experiences and outcomes, particularly for people in regional and rural Victoria.
4. A step-change in women's health.
5. Nation-leading reductions in rates of vaping.
6. Improved health equity through:
 - determination and ceding power.
 - Family-centred health models for priority populations.
 - Intersectional improvements in health access and outcomes for priority cohorts.
7. Improved mental health system through:
 - New and transformed integrated services through the implementation of the Royal Commission into Victoria's Mental Health System.
 - Strengthening system guidance, stewardship and commissioning.
 - Realising the vision of the new Mental Health and Wellbeing Act 2022 by driving cultural change.
 - Supporting a culture that embraces lived experience leadership at every level of the mental health and wellbeing system.
 - Investing in suicide prevention and mental health and wellbeing promotion.

System Priorities

Excellence in clinical governance

We aim for the best patient experience and care outcomes by assuring safe practice, leadership of safety, an engaged and capable workforce, and continuing to improve and innovate care.

Goals

- MA4 Identify and develop clinical service models where face to face consultations can be substituted by virtual care wherever possible (using telehealth, remote monitoring), whilst ensuring strong clinical governance, safety surveillance and patient choice.
- MA11 Develop strong and effective systems to support early and accurate recognition and management of deterioration of paediatric patients.

Health service deliverables:

- MA4 Building on similar models developed elsewhere in Victoria, implement a Virtual Inpatient Medical Model to maximise access to acute services closer to home whilst ensuring safe practice within ODH's service capability.
- MA11 Partner with Safer Care Victoria (SCV) and relevant multidisciplinary groups to establish protocols and auditing processes to manage effective monitoring and escalation of deterioration in paediatric patients via ViCTOR charts.
- MA11 Improve paediatric patient outcomes through implementation of the "ViCTOR track and trigger" observation chart and escalation system, whenever children have observations taken.
- MA11 Implement staff training on the "ViCTOR track and trigger" tool to enhance identification and prompt response to deteriorating paediatric patient conditions.

Working to achieve long term financial sustainability

Ensure equitable and transparent use of available resources to achieve optimum outcomes.

Goals

- MB1 Co-operate with and support Department-led reforms that look towards reducing waste and improving efficiency to address financial sustainability, operational and safety performance, and system management.

Health service deliverables:

- MB1 Explore opportunities to diversify revenue streams through partnerships, grants, and other innovative financing models to reduce dependence on government funding.
- MB1 Streamline support services operational capacity towards digitally enabled solutions, starting with a focus on facilities management.

Improving equitable access to healthcare and wellbeing

Ensure that Aboriginal people have access to a health, wellbeing and care system that is holistic, culturally safe, accessible, and empowering.

Ensure that communities in rural and regional areas have equitable health outcomes irrespective of locality.

Goals

- MC1 Address service access issues and equity of health outcomes for rural and regional people including more support for primary, community, home-based and virtual care, and addiction services.
- MC3 Enhance the provision of appropriate and culturally safe services, programs and clinical trials for and as determined by Aboriginal people, embedding the principles of self-determination.

Health service deliverables:

- MC1 Scale home-based care capacity and streamline service delivery across all relevant streams of care, including a review of the hours of operation and where necessary brokered service arrangements that best support client needs
- MC1 Building on similar models developed interstate, trial the implementation of virtual models of care to complement local allied health capacity, ensuring equitable access and continuity of service.
- MC3 Advance staff training opportunities to increase awareness and competency that supports better identification of Aboriginal and Torres Strait Islander clients and support implementation of tailored and culturally appropriate, comprehensive care by Omeo District Health services.

A stronger workforce

There is increased supply of critical roles, which supports safe, high-quality care. Victoria is a world leader in employee experience, with a focus on future roles, capabilities and professional development. The workforce is regenerative and sustainable, bringing a diversity of skills and experience that reflect the people and communities it serves. As a result of a stronger workforce, Victorians receive the right care at the right time closer to home.

Goals

- MD2 Explore new and contemporary models of care and practice, including future roles and capabilities.

Health service deliverables:

- MD2 Pilot, implement or evaluate new and contemporary models of care and practice, including future roles and building capability for multidisciplinary practice. For example Health Care Worker trial for residential area After-Hours Hospital Coordinator role Imaging skills for registered nurses supporting the Urgent Care Allied Health Assistants engagement in digitally enabled models of care.
- MD2 Explore international recruitment opportunities for short- and long-term engagement.

Moving from competition to collaboration

Share knowledge, information and resources with partner health and wellbeing services and care providers. This will allow patients to experience one health, wellbeing and care system through connected digital health information, evidence and data flows, enabled by advanced interoperable platforms.

Goals

- ME2 Engage in integrated planning and service design approaches, whilst assuring consistent and strong clinical governance, with partners to join up the system to deliver seamless and sustainable care pathways and build sector collaboration.

Health service deliverables:

- ME2 Collaborate with other health service providers, community organisations, the department and other stakeholders where it makes sense to explore opportunities for shared services, joint procurement, and resource sharing to meet consumer needs, reduce costs and improve efficiency.
- ME2 As a priority consider engagement with other home-based services providers to benchmark and enhance service operation and consideration of future opportunities.
- ME2 Implement Allied Health arrangements with other Community organisations from across the region
- ME2 Establish a Hospital in the Home arrangement with Bairnsdale Regional Health.

Care close to home

Primary and community care is accessible and reduces avoidable escalation in acuity of health conditions. When appropriate, hospital care is delivered in the home, including through digital care and connection, to deliver virtual care, telehealth, and other advanced models of care.

Goals

- EB3 Support improved access to services for people managing chronic disease by improving access to home-based and remote service delivery.

Health service deliverables:

- EB3 Implement an early intervention program that supports older people with more proactive management of their chronic disease or other complex care needs.

Part B: Performance Priorities

The *Victorian Health Services Performance Monitoring Framework* outlines the Government's approach to overseeing the performance of Victorian health services.

Further information is available at the [Funding, Performance and Accountability webpage](https://www.health.vic.gov.au/funding-performance-accountability/performance-monitoring-framework) <<https://www.health.vic.gov.au/funding-performance-accountability/performance-monitoring-framework>>.

High quality and safe care:

Key Performance Measure	Target
Infection prevention and control	
Percentage of healthcare workers immunised for influenza	94%
Patient experience	
Percentage of patients who reported positive experiences of their hospital stay	95%
Aboriginal Health	
Percentage of Aboriginal admitted patients who left against medical advice ¹	25% reduction in gap based on prior year's annual rate

Strong governance, leadership and culture

Key Performance Measure	Target
Organisational culture	
People matter survey – Percentage of staff with an overall positive response to safety culture survey questions	62%

Effective financial management

Key Performance Measure	Target
Operating result (\$M)	(0.88)
Average number of days to pay trade creditors	60 days
Average number of days to receive patient fee debtors	60 days
Adjusted current asset ratio	0.7 or 3% improvement from health service base target
Variance between forecast and actual Net result from transactions (NRFT) for the current financial year ending 30 June.	Variance ≤ \$250,000
Actual number of days of available cash, measured on the last day of each month	14 days

¹ Further work will be undertaken on leave event measures terminology that better captures patient experience and Aboriginal community's holistic understanding of health and wellbeing.

Part C: Activity and Funding

The performance and financial framework within which state government-funded organisations operate is described in *The Policy and Funding Guidelines – Funding Rules*. The Funding Rules details funding and pricing arrangements and provides modelled budgets and targets for a range of programs. The [Policy and Funding Guidelines](https://www.health.vic.gov.au/policy-and-funding-guidelines-for-health-services) webpage <<https://www.health.vic.gov.au/policy-and-funding-guidelines-for-health-services>>.

Period 1 July 2023 – 30 June 2024

Table 1 Omeo District Health funding summary for 1 July 2023 – 30 June 2024

Funding Type	Activity	Budget (\$'000)
Small Rural		
Small Rural Acute		2,803
Small Rural Primary Health & HACC	586	97
Small Rural Residential Care	5,062	363
Small Rural Health Workforce		68
Small Rural Other specified funding		505
Total Funding		3,836

Please note:

- Base level funding, related services and activity levels, outlined within the Policy and Funding Guidelines are subject to change throughout the year. Further information about the department's approach to funding and price setting for specific clinical activities, and funding policy changes is also available from: [Policy and funding guidelines for health services](https://www.health.vic.gov.au/policy-and-funding-guidelines-for-health-services) <<https://www.health.vic.gov.au/policy-and-funding-guidelines-for-health-services>>
- Each funding type row (eg "emergency services") comprises a mix of activity based funding and block grants. Funding depends on the service profile. For further details, refer to the Policy and funding guidelines for health services (see above point for link).
- In situations where a change is required to Part C, changes to the agreement will be actioned through an exchange of letters between the department and the health service's Chief Executive Officer.

Accountability and funding requirements

The health service must comply with:

- All laws applicable to it;
- The *National Health Reform Agreement*.
- All applicable requirements, policies, terms or conditions of funding specified or referred to in the Department of Health *Policy and Funding Guidelines 2023-24*.
- Policies and procedures and appropriate internal controls to ensure accurate and timely submission of data to the Department of Health.
- All applicable policies and guidelines issued by the Department of Health from time to time and notified to the health service.
- Where applicable, all terms and conditions specified in an agreement between the health service and the Department of Health relating to the provision of health services which is in force at any time during the 2023-24 financial year.
- Relevant standards for programs which have been adopted e.g. International Organisation for Standardisation standards and AS/NZS 4801:2001, Occupational Health and Safety Management Systems or an equivalent standard.
- Where applicable, this includes the National Safety and Quality Health Service Standards ('NSQHS standards') as accredited through the Australian Health Service Safety and Quality Accreditation Scheme.
- Specific to DHSV: in relation to the School Dental Project Plan, as agreed and specified by both parties, including meeting the requirements outlined in the School Licence Agreement.
- Any other relevant, applicable statutory, regulatory or accountability rules, policies, plans, procedures or publications.

Signing Page

The Secretary, Department of Health has issued this Statement of Priorities to detail the funding provided to enable Omeo District Health to meet its service obligations and performance requirements as outlined.
